TROPICAL PRODUCTS INSTITUTE

Staff List

Director: Mr. E. S. Hiscocks, M.Sc., F.R.I.C.

Personal Assistant		Miss D. Huddlestone

DIVISION A

Assistant Director: Dr. P. C. Spensley

Personal Assistant		Miss E. E. Jacobs
Administration	Higher Executive Officer	Mr. L. F. West
	Executive Officer	Mr. R. W. Jenner
	Executive Officer	Mr. D. J. Church
	Experimental Officer	Mr. F. A. Lee
Library	Librarian II	Mr. H. E. Thrupp
	Librarian IV	Mr. N. J. Day
	Librarian IV	Mr. T. McVittie
	Experimental Officer	Miss V. Clarke
	Experimental Officer	Mrs. U. Johnson
	Experimental Officer	Miss S. M. G. McDonald
Scientific Liaison, Publications and Photography	Senior Scientific Officer	Dr. S. S. Bampton
	Scientific Officer	Mrs. A. Watts
	Experimental Officer	Miss A. T. Godsell
	Experimental Officer	Miss M. Kershaw
	Experimental Officer	Miss B. R. Smith
	Senior Photographer	Mr. J. O. Barron
Workshop	Senior Experimental Officer	Mr. L. J. Beer
	W.T.O. III	Mr. A. L. Brooks
Power Resources	Principal Scientific Officer	Dr. L. R. B. Shackleton
	Senior Experimental Officer	Mr. L. J. Flaws
	Senior Experimental Officer	Mr. C. C. Noaks
	Experimental Officer	Mr. J. E. Stokes

DIVISION B

Assistant Director: Dr. L. Horton

Personal Assistant		Miss T. M. Bertram
Essential Oils	Principal Scientific Officer	Dr. G. B. Pickering
	Senior Scientific Officer	Dr. K. Jewers
	Senior Experimental Officer	Mr. E. G. Brown
	Senior Experimental Officer	Mr. W. S. A. Matthews
Drugs	Principal Scientific Officer	Dr. A. J. Feuell
	Senior Scientific Officer	Dr. B. F. Nesbitt
	Senior Scientific Officer	Dr. K. Sergeant
	Experimental Officer	Mr. B. J. Francis
	Experimental Officer	Mr. J. C. O'Kelly
	Assistant Experimental Officer	Mr. J. B. Ward
Pesticides	Principal Scientific Officer	Dr. E. M. Thain
	Senior Scientific Officer	Mr. J. A. Dawson
	Senior Research Fellow	Dr. P. J. Godin
	Experimental Officer	Mr. L. Donegan
	Assistant Experimental Officer	Miss H. S. Inglis

Sugar Esters	Scientific Officer	Dr. G. R. Ames
	Assistant Experimental Officer	Mrs. H. M. Blackmore
Physical Chemistry	Principal Scientific Officer	Mr. H. J. Dothie
	Senior Scientific Officer	Mr. T. J. Coomes
	Experimental Officer	Mr. H. J. Warlow
	Experimental Officer	Mr. A. B. Wood

DIVISION C

Assistant Director: Dr. W. D. Raymond

Personal Assistant		Mrs. M. H. L. McAlden
Oils, Fats and Waxes, and Microbiology	Principal Scientific Officer	Vacant
	Senior Scientific Officer	Dr. J. A. Cornelius
	Experimental Officer	Miss A. J. Sheridan
	Experimental Officer	Mr. G. G. Shone
	Assistant Experimental Officer	Mr. J. H. Broadbent
	Assistant Experimental Officer	Mr. T. W. Hammonds
Foods and Feedingstuffs	Principal Scientific Officer	Mr. L. J. Greenwood-Barton
	Senior Scientific Officer	Mr. D. Halliday*
	Experimental Officer	Mr. P. C. Crowther
	Experimental Officer	Mr. A. Hoffman
	Experimental Officer	Miss J. S. Ingram
	Assistant Experimental Officer	Mr. B. H. Barnes
Fruits and Vegetables	Chief Experimental Officer	Mr. E. H. G. Smith
	Senior Scientific Officer	Dr. G. E. Howard
	Experimental Officer	Miss J. H. Gawler
	Experimental Officer	Mrs. D. E. Kay

DIVISION D

Assistant Director: Dr. R. H. Kirby

Personal Assistant		Miss E. M. Farrier
Fibres, Paper & Board Making, Hides & Skins	Senior Scientific Officer	Miss V. Laws
	Senior Experimental Officer	Mr. A. E. Chittenden
	Experimental Officer	Mr. R. D. Coveney
	Experimental Officer	Mr. W. H. Hale
	Experimental Officer	Mr. C. G. Jarman
	Experimental Officer	Mr. E. R. Palmer
Economics and Statistics	Principal Scientific Officer	Miss E. Orr
	Assistant Experimental Officer	Mr. P. J. R. Breslin
	Assistant Experimental Officer	Mr. A. G. Fortey
	Assistant Experimental Officer	Mr. R. N. Horne

* Seconded

INDEX

Volume III, 1961

Scientific names and titles of books are printed in italics and personal names in capitals

page

Animal Husbandry in the Tropics, by WILLIAMSON, G., and PAYNE, W. J. A. (Review) 43
Annual Review of Plant Physiology, Vol. 12. Edited by MACHLIS, L., and BRIGGS, W. R. (Review) 185

BAMPTON, S. S., Yams and diosgenin 150
Balanites, as a source of diosgenin 132
Beans
  castor, as food and fodder 19
  vanilla, market for 174
Beekeeping in the Tropics, by SMITH, F. W. (Review) 43
Bibliographies 45, 94, 140, 187
Bilharzia, the new importance of an old disease 6
Book Reviews 41, 90, 134, 184
By-products, veterinary, some problems in the manufacture of . . 54

CALDERON, M., and SHAAYA, E., estimations of carbon dioxide in stored grain 25
Carbon dioxide, estimations of, in stored grain 25
Cassava, source of starch in Commonwealth territories . . . 101
Castor beans, as food and fodder 19
CASWELL, G. H., infestation of cowpeas 154
CHADHA, Y. R., Cassava, source of starch 101
CHADWICK, M. G. A., market for gum arabic 31
CHADWICK, M. G. A., ORR, Miss E., and POPE, R., market for vanilla beans 174
Cowpeas, infestation of 154

DAVEY, Miss P. M., the acceptability and fitness of maize meal for human consumption 163
Diosgenin
  Balanites as a source of 132
  and yams 150
Diseases, agricultural, in history and literature 127

Entomological Conference, Report of the Seventh Commonwealth, (Review) 41

Grain
  stored, estimations of carbon dioxide in, ... 25
  malathion, used to protect from insect infestation 114
Gum arabic, market for 31

MCFARLANE, J. A., malathion to protect bagged foodstuffs from infestation 114
Maize meal, its acceptability and fitness for human consumption . . 163
Malathion, water-dispersible powder, for protecting bagged foodstuffs from infestation 114
MANN, I., problems of veterinary by-product manufacture in less developed territories 54

Market *page*
for gum arabic 31
for vanilla beans 174
MULLER, R., bilharzia, the new importance of an old disease . . 6

News Round-up 3, 51, 99, 147
Nitrogen Problem, by DHAR, W. R. (Review) 136
Nutmeg, leaves, oil from 40
Nematology, Principles of, THORNE, G. (Review) 184

Oil
from nutmeg leaves 40
palm, industry 69
Oilseed, *trichodesma zeylanicum* as an, ... 132
ORDISH, G., Agricultural pests and diseases in history and literature . 127
ORR, Miss E., CHADWICK, M. G. A., and POPE, R., market for vanilla beans 174

Paint, research in the tropics 159
Palm oil industry 69
Pests, agricultural in history and literature 127
Pineapple, The, by COLLINS, J. L. (Review) 91
Plant Physiology, Annual Review of, Vol. 12, Edited by MACHLIS, L., and BRIGGS, W. R. (Review) 185
POPE, R., CHADWICK, M. G. A., and ORR, Miss E., market for vanilla beans 174
Principles of Nematology, by THORNE, G. (Review) 184
Proceedings of the International Society of Sugar-Cane Technologists (Review) 135

Radiation Technology in Food, Agriculture and Biology, by DESROSIER, N. D., and ROSENSTOCK, H. M. (Review) 135
RAYMOND, W. D., castor beans as food and fodder 19
RAYMOND, W. D., palm oil industry 69
Report of the Seventh Commonwealth Entomological Conference (Review) 41
Report on an Economic Study of Small Farming in Jamaica, by EDWARDS, D. (Review) 184
Reports, published by Tropical Products Institute, 1961 139

SHAAYA, E., and CALDERON, M., estimations of carbon dioxide in stored grain 25
Sugar-cane Technologists, proceedings of the International Society of (Review) 135
Synecology and silviculture in Ghana, by TAYLOR, C. T. (Review) . . 42

Termites, their Recognition and Control, by HARRIS, W. V. (Review) . 134
Tropical Agriculture, by WRIGLEY, G. (Review) 137
Technology of Wine-making, by AMERINE, M. A., and CRUESS, W. V. (Review) 92

Vanilla, beans, market for 174
Veterinary, by-products, some problems in the manufacture of . . 54

Wealth of India, Industrial Products (I–L), Edited by SASTRI, B. N. (Review) 90
Wine-making, Technology of, by AMERINE, M. A., and CRUESS, W. V. . 92
WHITELEY, P., paint research in the tropics 159

Yams, and diosgenin 150

Tropical Science

The quarterly journal of the Tropical Products Institute

EDITOR : S. S. BAMPTON, B.Sc., PH.D.

ASSISTANT EDITOR : MISS M. KERSHAW, B.Com.

ARTICLES *page*

Bilharzia: The New Importance of an Old Disease. By R. Muller, *Department of Technical Co-operation* 6

Castor Beans as Food and Fodder. By W. D. Raymond, *Tropical Products Institute* 19

Estimations of Carbon Dioxide in Stored Grain. By M. Calderon and E. Shaaya, *Ministry of Agriculture, Israel* 25

Some Problems of By-Product Manufacture in Less Developed Countries. By I. Mann, *Department of Veterinary Services, Kenya* . . . 54

The Palm Oil Industry. By W. D. Raymond, *Tropical Products Institute* 69

Sources of Starch in Commonwealth Territories III: Cassava. By Y. R. Chadha, *Council of Scientific and Industrial Research, New Delhi* 101

Malathion Water-Dispersible Powder for the Protection of Bagged Food stuffs from Insect Infestation. By J. A. McFarlane, *Colonial Pool for Stored Products Research* 114

Agricultural Pests and Diseases in History and Literature. By G. Ordish, *Department of Technical Co-operation* 127

Yams and Diosgenin. By S. S. Bampton, *Tropical Products Institute* . 150

The Infestation of Cowpeas in the Western Region of Nigeria. By G. H. Caswell, *University College, Ibadan, Nigeria* 154

Paint Research in the Tropics. By P. Whiteley, *Building Research Station* 159

The Acceptability and Fitness of Maize Meal for Human Consumption. By Miss P. M. Davey, *Pest Infestation Laboratory* 163

REPORTS OF RECENT INVESTIGATIONS AT THE TROPICAL PRODUCTS INSTITUTE

The Market for Gum Arabic. By M. G. A. Chadwick 31

CONTENTS

The Market for Vanilla Beans. By M. G. A. Chadwick, Miss E. Orr and R. Pope 174

NOTES

Oil from Nutmeg Leaves 40

Trichodesma Zeylanicum as an Oilseed 132

Balanites as a Source of Diosgenin 132

New Department Handles British Technical Aid Overseas 145

LIST OF REPORTS PUBLISHED BY TROPICAL PRODUCTS INSTITUTE, 1961 139

INDEX TO VOLUME III 192

LIST OF PLATES AND FIGURES

Bilharzia: The New Importance of an Old Disease

Plate I		*page*
Adult worms of *Schistosoma mansoni*. The slimmer female is carried in a canal formed by the curve of the male's body. Stained specimen magnified about 15 times	*facing*	12
Plate II		
Section across a small vein with interior completely blocked by four pairs of worms. Magnified about 75 times	*facing*	12
Plate III		
Snail host of bilharzia from South America (*Australorbis glabratus*). Numerous young snails and egg masses are on the leaves of the plant magnified three times	*between* 12 and 13	
Plate IV		
Clinical case of bilharzia in Brazil, with enlargement of spleen	*between* 12 and 13	
Plate V		
A bilharzia-infected stream in Brazil, in which women wash clothes and children paddle	*between* 12 and 13	
Plate VI		
Children fishing and bathing in an infected pool in the Sudan	*facing*	13
Plate VII		
A farmer in Leyte Island, Philippines, ploughing. This is a typical habitat for the snails of Oriental bilharziasis	*facing*	13
Figure 1		
World Distribution of bilharzia		9
Figure 2		
Diagrammatic representation of the life cycle of *Schistosoma monsoni*		12

Castor Beans as Food and Fodder

Plate I		
Castor Oil Plant (*Ricinus communis*)	*facing*	20

PLATES

SOME PROBLEMS OF BY-PRODUCTS MANUFACTURED IN LESS DEVELOPED COUNTRIES

		page
PLATE I		
Bone Meal to improve the pastoralist's livestock	*facing*	59
PLATE II		
Field abattoir: Sun-drying of meat	*facing*	60
PLATE III		
Mobile bone meal plant	*facing*	61
FIGURE 1		
Diagram of the main by-products of animal origin		59
FIGURE 2		
A By-Products building and its relation to the slaughter house		66

THE PALM OIL INDUSTRY

PLATE I		
Fruits of Deli and African *dura* and *tenera* palms, shown both in the ripe and unripe state	*facing*	70
PLATE II		
Fruits of Deli and African *dura* and *tenera* palms, as seen in longitudinal and transverse section	*facing*	71
FIGURE 1		
World commercial production of palm oil, 1958		70
FIGURE 2		
Oil palm habitats with relation to biotic factors		73
FIGURE 3		
Comparison of the development of kernel and mesocarp		80
FIGURE 4		
Bleachability—Deli Krater		82

SOURCES OF STARCH IN COMMONWEALTH TERRITORIES III: CASSAVA

PLATE I		
General view of cassava plantation showing roots in foreground	*facing*	102
PLATE II		
Prize cassava tubers	*between*	102 & 103
PLATE III		
Cassava roots as lifted	*between*	102 & 103

PLATES

PLATE IV — *page*

Nigerian women preparing gari on village scale . . *facing* 103

PLATE V

Grating cassava for the preparation of gari . . *facing* 103

AGRICULTURAL PESTS AND DISEASES IN HISTORY AND LITERATURE

PLATE I

A Mole cricket, *Gryllotalpa gryllotalpa* . . . *facing* 127

PLATE II

A Bush cricket, identified by Bodenheimer, as *Tettigonia viridissima*. This insect is closely related to the grasshopper . . . . . *facing* 127

PLATE III

The common wasp, *Vespula vulgaris* . . . . *facing* 128

PLATE IV

A beetle, identified by Bodenheimer, as *Carabus auratus* *facing* 128

PLATE V

The Lucerne butterfly, *Colias lesbia* . . . . *facing* 130

PLATE VI

The swallowtail butterfly, *Papilio* sp. . . . . *facing* 130

YAMS AND DIOSGENIN

PLATE I

Dioscorea yam . . . . . *facing* 150

THE INFESTATION OF COWPEAS IN THE WESTERN REGION OF NIGERIA

PLATE I

Cowpea on sale in Ibadan market . . . . *facing* 156

PLATE II

Cowpea at the railway station, Ibadan . . . *facing* 157

PLATE III

Cowpea, showing holes made by adult bruchids emerging from the seeds . . . . . *facing* 157

FIGURE 1

Damage to cowpea offered for sale in southern Nigeria at different times of the year 155

PLATES

FIGURE 2 *page*

The moisture content of cowpea offered for sale in southern Nigeria at different times of the year . 156

PAINT RESEARCH IN THE TROPICS

PLATE I

Mould growth on painted ceiling, Ibadan . . . *facing* 160

PLATE II

Mould growth on painted test panels, Florida . . *facing* 160

PLATE III

Cladosporium herbarum. 50 times magnified . . *facing* 160

THE ACCEPTABILITY AND FITNESS OF MAIZE MEAL FOR HUMAN CONSUMPTION

FIGURE

Increases in fat acidity of maize meal occurring during 52 days, storage at 30°C and 70 per cent relative humidity 170
